Web Development Projects

Haiku Weather - Pairing Weather with a Poem
Full-Stack Developer
- A weather app designed to provide a haiku based on location and weather.
- Completed this solo project to develop skills in React and API development.
// React, Rails, CSS, HTML, Heroku, Netlify, Open AI API, OpenWeather API

OnTrack - Discover Your Learning Path
(Best viewed on mobile device. Username: kevin@ontrack.com, pw: buddy000)
Project Manager & Full-Stack Developer
- A progressive web-app that makes learning more fun and engaging through personalized assignments and an interactive, personal study buddy.
- Created initial app and character designs, led both front-end and back-end development, and integrated Chat GPT.
// Rails, CSS, HTML, Stimulus, Heroku, Open AI API

Okasan Food - Authentic Flavors, Delivered Fresh
Project Manager & Full-Stack Developer
- A food delivery service app that connects users with homemade meals.
- Delegated tasks, oversaw project milestones, and contributed to both front-end and back-end development.
// Rails, CSS, HTML, Vanilla JavaScript, Heroku

Work Experience

Tokyo Global Gateway   04/2018 - present
People Operations Supervisor
- Enhanced cross-cultural collaboration and fostered an inclusive work environment by leading an international team of 300+ educators from 60+ countries.
- Developed and led both recruitment and onboarding departments to ensure critical staffing needs were met, allowing uninterrupted operations.
- Elevated the skill level of teaching staff by collaborating with Gakken Holdings and the Tokyo Board of Education to set and execute training standards.
- Created a culture of continuous development by implementing a mentorship system dedicated to the growth of new supervisors.

iTTTi Japan   06/2014 - 03/2018
ESL Teacher
- Increased student engagement and learning outcomes through tailored educational content that addressed student interests and areas of improvement.
- Elevated teaching standards branch-wide via hands-on training, lesson observations, and new staff onboarding.
